

The Sapling Centre - new specialist primary provision

Following careful planning and consideration of the needs of our pupils, we are providing our primary children with an exciting new educational provision called The Sapling Centre.

This represents a fantastic and exciting opportunity to further develop our specialist provision and create an environment that supports learning, engagement and wellbeing for our pupils. We are extremely grateful for the continued investment and support from Solihull Local Authority, which is helping to enhance the facilities available at The Sapling Centre. Planned developments include the installation of a new soft play room and a sensory dark room in the near future, creating additional therapeutic and enriching spaces for pupils to access as part of their school experience.

Below are some artists' impressions of how the building will look.

The address for the new centre is:

The Sapling Centre,

Wheatfield Close (next to Wise Owl's Nursery)

Smiths Wood

B36 0QP.
